Summary

I'm a Computer Science student with a passion for **coding** and creating **practical, user-friendly** applications. I've worked on projects like a jigsaw puzzle game, to-do list, and recipe website, and have cloned websites to hone my **front-end skills**. With a solid foundation in **HTML, CSS, JavaScript, PHP**, I focus on **problem-solving** and building **responsive designs**. I'm eager to apply my skills in **real-world** projects and continue growing as a developer.

Skills

- ✓ **Front end development:** HTML, CSS, JavaScript, React, tailwind css.
- ✓ **Back end development:** PHP, MySQL
- ✓ **Version Control:** GIT, GitHub
- ✓ **Programming Languages:** C++, Java, JavaFx
- ✓ **Technical Proficiency:** Advanced user of Microsoft Office Suite (Word, PowerPoint, Excel).
- ✓ **Languages:** Amharic and English.
- ✓ **Team Collaboration:** Effective in collaborating with cross-functional teams to achieve project goals.

Professional experience

Frontend Development Intern

Prodigy InfoTech — Remote | Sep 2024 - Oct 2024

Technologies: HTML5, CSS3, JavaScript

Overview

Completed a one-month remote internship focused on designing and developing five individual front-end projects. Strengthened skills in creating responsive, user-friendly websites using core web technologies.

Key Responsibilities

- ✓ Built web projects using **HTML, CSS, and JavaScript**.
- ✓ Designed original layouts and features for custom websites.
- ✓ Cloned the **Netflix homepage** to practice UI replication and design consistency.

- ✓ Applied web development best practices including semantic **HTML**, **responsive design**, and **clean code structure**.

Key Achievements

- ✓ Improved front-end skills by working independently on real-world-style challenges.
- ✓ Gained hands-on experience in **web design**, **feature planning**, and **responsive UI development**.

Final Year Project - Bertu Habesha ReHub

Nov 2024 – Jul 2024 | Team of 5

Technologies: HTML, CSS, JavaScript, PHP, MySQL

Overview

Bertu Habesha ReHub is a culturally tailored web platform designed to support Ethiopian teenagers and young adults, by providing integrated fitness, nutrition, and rehabilitation services. The platform offers structured rehabilitation programs, counseling support, and interactive community forums to promote wellness within the Ethiopian context.

Key Responsibilities

- ✓ Developed frontend components using **HTML**, **CSS**, and **JavaScript** to create an intuitive and responsive user interface.
- ✓ Wrote PHP code to implement backend functionalities and connect the frontend with server-side processes.
- ✓ Conducted comprehensive **testing and code reviews** to ensure functionality, usability, and adherence to project standards.
- ✓ Collaborated with teammates on integrating features such as community forums, fitness plans, and nutrition tracking.

Key Achievements

- ✓ Contributed to delivering a user-friendly, culturally relevant wellness platform.
- ✓ Ensured high quality and consistency through diligent review and testing efforts.
- ✓ Gained valuable experience in full-stack web development within a collaborative team environment.

Freelance Full-Stack Developer

Real Estate Sales Website for Ghion Homes Agent | Ju 2024 – Aug 2024

Technologies: HTML5, CSS3, JavaScript, Node.js, PostgreSQL

Overview

Built and deployed a professional real estate website for a Ghion Homes sales agent with dynamic content management features. The site showcases property listings, integrates social media videos, and allows the client to manage content through a custom admin panel.

Key Responsibilities

- ✓ Led design and development on both frontend and backend using **HTML, CSS, JavaScript, Node.js, and PostgreSQL**.
- ✓ Built dynamic property listing features driven by a PostgreSQL database, enabling real-time updates.
- ✓ Developed an intuitive admin panel for the client to manage:
 - ✓ Property Listing
 - ✓ Embedded TikTok and YouTube videos
 - ✓ Testimonials and other website content
- ✓ Implemented **multi-language support** to serve diverse users.
- ✓ Integrated multimedia features including **3D video presentations** of properties.
- ✓ Ensured mobile responsiveness and cross-browser compatibility.
- ✓ Managed hosting, deployment, and maintenance of the live website.

Key Achievements

- ✓ Delivered a fully functional, client-approved, and publicly accessible website with dynamic content management.
- ✓ Empowered the client with an easy-to-use admin system for ongoing website updates without developer intervention.
- ✓ Enhanced skills in full-stack development, database management, and multilingual site implementation.
